INDUSTRY SCENARIO

The Gross Written Premium of Non-Life Insurers is reported at around ₹ 729 billion, a growth of around 12.2% over the previous year. This performance is being viewed in the wake of sluggish economic growth and a steep drop in automobile sales. The market share of public sector companies was 56% and the private sector companies with a year-on-year growth of 14.4% constituting 44%. Motor, Health and Fire insurance continued to constitute a significant portion of the insurance portfolio at about 80%.

The growth of the health insurance lines of business dipped to 12.9% from the earlier year's level of 17.4%.

In commercial lines, the intense competition and the continuing inadequate premium pricing had the effect of dipping underwriting profitability.

SUMMARY OF COMPANY PERFORMANCE

The Company achieved a GWP (direct) of ₹ 18551 million registering a growth of 14.5% over the previous year. The Company's market share as at March 31, 2014 was 2.54% (w/o specialized companies).

The higher than industry growth, in a tough external environment, was made possible by a marked improvement in the efficiency of various channels of business sourcing, strong growth in the individual health and weather lines of business. The Company consciously pared down its focus on the government sponsored health insurance schemes in view of the changed policy terms and predatory pricing by some insurers.

The underwriting results were impacted to a certain extent by catastrophes like Uttarakhand floods, Cyclone Phailin and a few large losses in commercial lines. Together with investment income, the Company recorded its highest ever operating profits.

The Company for the first time crossed ₹ 1 billion mark in profit before tax after absorption of:

- (a) the last and final tranche of losses from dismantled IMTPIP of ₹ 549 million
- (b) losses from declined pool of ₹ 172 million arising from the revision in Ultimate Loss Ratio advised by IRDA for the year 2012-13

- (vii) Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value of the asset and present value of the minimum lease payments at the inception of lease term and are disclosed as leased assets.

Lease payments are apportioned between the finance charges and the corresponding liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to the Revenue accounts.

Leased assets capitalized under finance lease are depreciated on a straight line basis over the lease term.

J. Operating Leases

Exchange differences arising on actual payments / realisations are adjusted to the Revenue Account. L. Taxation

Income tax expense comprises current tax (i.e amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between the accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted as on the balance sheet date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future. In the case of unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only to the extent there is virtual certainty that the deferred tax assets can be realized. Deferred tax assets are reviewed as at each balance sheet date.

- a. The contested Income Tax Demands have been ascertained taking into consideration the relief allowed by Commissioner of Income Tax (Appeals) (CIT(A)) and the principles adopted in the orders of the CIT(A) on similar disputed issues in the previous assessment years. The Company is on appeal before CIT(A) for the assessment years 2009-10 and 2010-11 and before Income Tax Appellate Tribunal (ITAT) for earlier assessment years from 2003-04 to 2008-09, with respect to disallowance amounting to ₹1,303,709 thousands (Previous Year ₹1,036,248 thousands). Pending disposal of the appeals, the amounts so far remitted by the Company / adjusted by the Department stands at ₹176,961 thousands (Previous Year ₹140,327 thousands) for all the assessment years in respect of the above disallowances. Considering the prevailing industry practice over several decades and the view taken by the Income Tax Department elsewhere in India on the same matter, the Company is of the opinion that the above demand is not sustainable and expects to succeed in its appeals.
- b. The Company is on appeal to CESTAT against the order of the Commissioner with respect to disallowance of availment of input credit of service tax on labour charges in motor claims for the period July 2007 to March 2011 amounting to ₹144,050 thousands (including penalty of ₹64,693 thousands) and made payments of ₹5,000 thousands (Previous Year − ₹5,000 thousands) under protest as per stay orders of CESTAT. Considering the view taken by the Service Tax Department elsewhere in India on the same matter, the Company expects to succeed in its appeal.

- c. The company is on appeal to CESTAT against the order of the Commissioner with respect to the demand of remittance of service tax of ₹258,768 thousands (Previous Year ₹245,683 thousands) (for the period from 2006-2007 to 2011-2012), including penalty of ₹122,842 thousands (Previous Year ₹122,842 thousands) under reverse charge method on business auxiliary services availed from certain intermediaries. The company has remitted ₹51,580 thousands (Previous Year ₹51,202 thousands) under protest. As the service providers have remitted Service Tax, there is no loss of revenue to the Government. Tribunals have held that where the remittance is made and there is no jeopardy to the interests of the Revenue, the demand cannot be enforced. The Company is confident of getting the appeals allowed.
- d. The Company had received a claim intimation in October 2008 for a fire loss from one of its customers, which in the opinion of the management is not admissible on account of violation of express terms and conditions of the policy. This view is substantiated by the Joint Surveyors' report and is also supported by a legal opinion and accordingly the Company has repudiated the claim in March 2009. The customer has since referred the matter to the National Commission established under the Consumer Protection Act. Based on the underlying terms of the policy and the legal opinion, the Company is confident that no liability will arise. The said claim, if provided for, would increase the net incurred claims upto ₹27,600 thousands.

The assets of the Company are free from encumbrances except in the case of

- a) Deposits under lien to banks amounting to ₹12,640 thousands (Previous Year ₹2,796 thousands)
